### **German exhibitor delegation debuts at Medtec China; high-quality products promote development of the Medical Device industry**

This year, a German pavilion is for the first time participating in Medtec China. Visitors can experience the high quality of German manufacturing and gain product design inspiration from various exhibits. For instance, INNOMATEC's testing equipment, FOBA's laser printing label technology, IMSTec GmbH's automation equipment, INDEX-Werke's machine tools and 3D printing laser system, Anti-Germ International's industrial cleaning agents and disinfectants, Carl Haas's metal materials and WIBU-Systems' computer software technology will all be on display.

Besides, Singaporean and Taiwanese pavilions will be present at Medtec China 2017 as well to provide customized precision parts, molding services, surface treatment and contract manufacturing services and products.

### **Group buyer list first release; onsite MicroPort Purchasing meeting upgraded**

Up to now, Medtec China's pre-registered audience increased by 70%. Pre-registration has been underway for almost two months,

The number of attendees and their registration growth rate are both beyond that of the same period of last year. Many well-known medical device manufacturers will visit Medtec China in groups in order to look for high-quality suppliers, purchase new products and access product innovation ideas, such as Shanghai Microport Medical (Group); Stryker (Suzhou) Medical Technology; PINS Medical Equipment; and SHSMA Co., Ltd. For more information, please call +86 21 6157 3928.

This year, Microport is upgrading its onsite event via the " Microport purchasing meeting " platform after last year's successful seminar. The meeting aims to establish an interactive platform for suppliers and purchasers so that they can communicate regarding product design and R & D needs, which may eventually lead to follow-up business cooperation. Meeting topics include details of procurement requirements, polymer materials procurement, metal materials procurement, and machining parts procurement, etc. Building the most professional and most efficient technology and trade services platform for the medical device industry supplier and customer are Medtec China's goal which have been maintained and implemented for more than 10 years.

Only seven booths remain available, and booth reservation ends in July. Don't miss this great opportunity for the global medical market in 2017. If you want more information about 2017 exhibitors, visitor purchasing needs, or booth reservation, please [click here](#) or call us.
